

# YOUR MEDICATION ADHERENCE SOLUTION

## MEDSYNC'S THREE KEY PRODUCT FEATURES

### MEDICATION SYNCHRONIZATION

### AUTOMATED PATIENT ALERTS

### APPOINTMENT SCHEDULING

MEDSYNC is a complete medication adherence solution that provides proactive refills, synchronization of medications, automated outbound notifications, and centralized fill, including customized compliance packaging (cards, strip packaging).

## **IDENTIFIES PATIENTS**

- Identifies eligible patients (on chronic medications)

## **ENROLLS PATIENTS**

- Sets up communication preferences for patients by text message, email, or phone call
- Sends customizable outbound notification from pharmacy

## **SYNCHRONIZES MEDICATIONS**

- Syncs all medications and packaging types
- Issues multiple syncs for multiple days' supply
- Schedules unfills and upcoming fills
- Tracks on-hand medications that patient may have and on-hand medication quantities for non-oral medications (inhalers, creams, etc.)
- Schedules monthly sync dates for patient medication pick ups

## **REFILLS MEDICATIONS**

- Sends automated outbound notifications to patients 10 days and 3 days prior to sync date
- Customizes outbound notification specific to pharmacy (caller ID)
- Renews or modifies Rx within the sync when changes occur

## **PACKAGES**

- Provides centralized packaging (vial, compliance packs, strip packaging)

## **UTILIZES APPOINTMENT BASED MODEL**

- Schedules and manages patient appointments
